

YOU'VE CLEANED IT... NOW WHAT?

Sheathing Technologies, Inc.

Ultrasound Transducer Storage and Transport Covers

Manufacturer of FDA-cleared procedure covers

Want to Meet your Accreditation Requirements?

We have a **solution** for you: Sheathes ultrasound transducer storage and transport cover. This product is designed to meet your auditors expectations.

Helps **minimize contamination** from incidental contact and airborne contaminants, including bacteria and viruses. Our **moisture resistant boundary** cover allows residual moisture to evaporate – unlike plastic bags. There is an **adhesive line strip** at the opening to seal around the cord thus covering the entire transducer tip and handle for **complete protection**.

The **latex-free** cover is easy to install and remove and has a **pre-printed label** for your convenience. We also offer **value pricing** when purchased with Sheathes ultrasound probe covers!

Available in **Sterile** and **Non-Sterile** packaging from 8 to 21 inches in length

****New Item****

TRSP1435NS W/BIOHAZARD

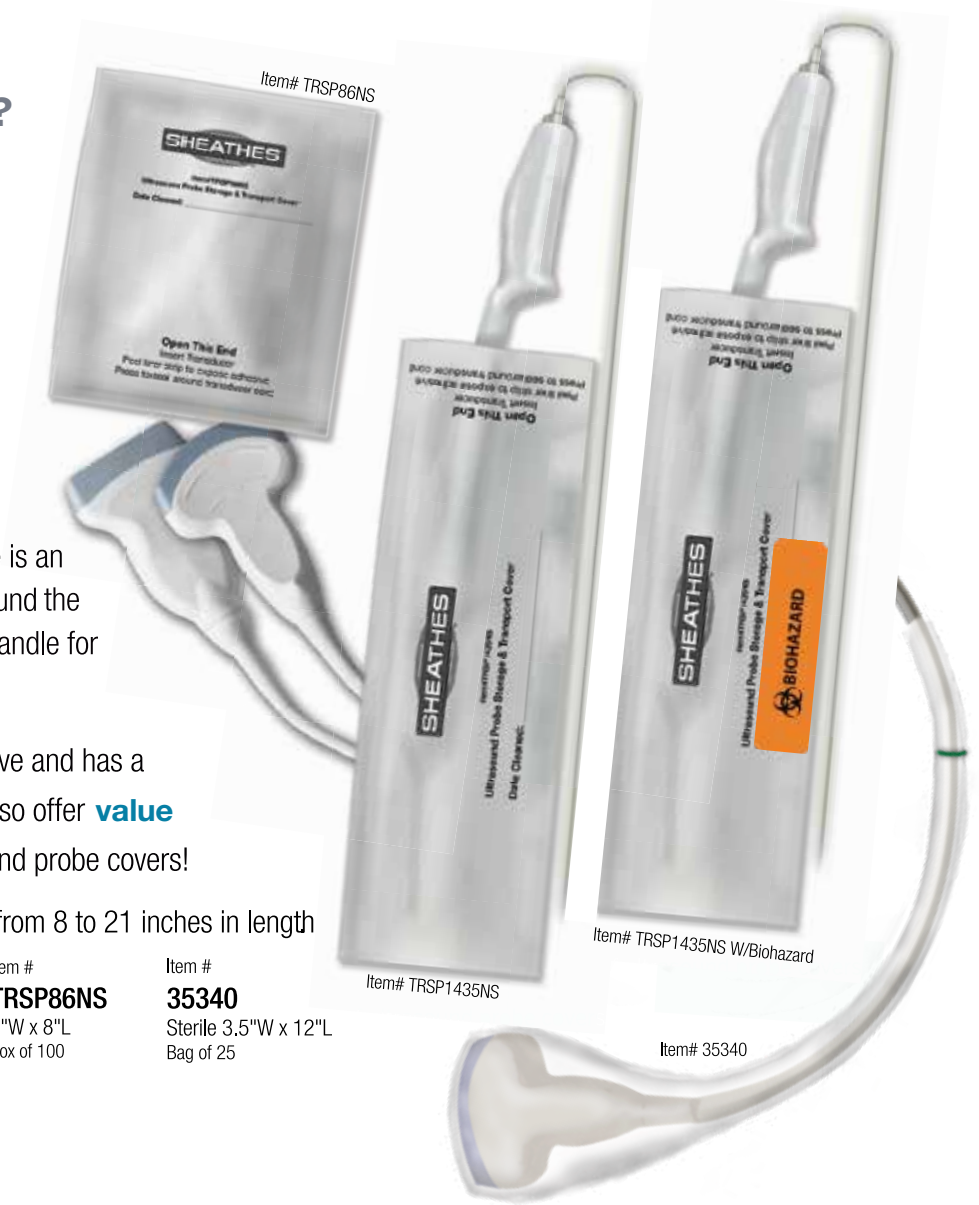

Use after high level disinfection process as a clean cover, then re-use after procedure completion as a clearly marked Biohazard/ dirty cover.
